

About The Institution of Engineers (India)

The Institution of Engineers (India) or IEI is the largest multidisciplinary professional body that encompasses 15 engineering disciplines and gives engineers a global platform from which to share professional interest. IEI has membership strength of over 0.8 million. Established in 1920, with its headquarters at 8 Gokhale Road, Kolkata - 700020, IEI has served the engineering fraternity for over nine decades. In this period of time it has been inextricably linked with the history of modern-day engineering.

In 1935, IEI was incorporated by Royal Charter and remains the only professional body in India to be accorded this honour. Today, its quest for professional excellence has given it a place of pride in almost every prestigious and relevant organization across the globe. IEI functions among professional engineers, academicians and research workers. It provides a vast array of technical, professional and supporting services to the Government, Industries, Academia and the Engineering fraternity, operating from 121 Centres located across the country. IEI provides grant-in-aid to its members to conduct research and development on engineering subjects.

IEI conducts Section A & B Examinations in different Engineering disciplines, the successful completion of which is recognized as equivalent to Degree in appropriate field of Engineering of recognized Universities of India by the Ministry of Human Resources Development, Govt. of India. Every year as many as 80000 candidates appear for these exams. For details, please see: www.ieindia.org

About the associate organization

Jerusalem College of Engineering was established in the year 1995 under the umbrella of Jerusalem Education Trust to impart quality engineering education. Over the period of 22 years it has made a mark of itself and got established as an institution which offers excellent engineering education.

It is one of the very rare Institutes which is situated in close proximity to premier educational institutes and also the IT Hub of Chennai. The Institute offers 7 Under-graduate and 7 Post-graduate courses in Engineering, Technology and Management. The Institute has very good infrastructural facilities and laboratories with state-of-the-art equipment. The faculties of the college are a nice blend of both academic and industrial experience. The alumni of the college holding key positions in various national / international industries and academic institutions have brought laurels to the institution. The institute has been consistently getting University Ranks at both the UG and PG level. The institute is accredited by NAAC and NBA.

The Institute is a Collaborative Research Centre of Anna University in the Departments of Computer Science and Engineering, Civil Engineering, Electrical and Electronics Engineering & Electronics and communication engineering. A good number of funded projects from premier organizations are also being executed in the college. Patents have also been obtained by the college for socially relevant projects.

AIM OF THE PROGRAM

The main objective of this workshop is to give the participants an intuitive understanding of how the climate change will affect the human and environment, and how can communities be empowered to build resilience
