DEPARTMENT OF BIOMEDICAL ENGINEERING

22.09.2023

Report on Inaugural function of Biomedical Engineers' Association and Healthaware Club

The Biomedical Engineers' Association (BMEA) is a formal group formed every year with all the students and faculty of the department as its members with an objective to bring students together, helping them acclimate to life at the college, connecting them to other students, as well as alumni, help students to expand their skill sets beyond the classroom and also develop transferable skill so that a united student movement is built to strive towards a quality education and learning process. With this very purpose of allowing student members to gain personal and professional skills in the area of leadership development, we had conducted elections in online mode and the office bearers of BMEA for this year 2021- 2022, were elected.

The inaugural function of BMEA was held on 20.09.2023 at the College Auditorium. Dr. Mahesh Veezhinathan, Associate Vice-President, Forge Innovation and Ventures, an organization which is specially with a vision to activate innovative tech, product or business ideas & accelerate them to become investable startups. He insisted the the purpose of bringing students together, helping them acclimate to life at the college, connecting them to other students, as well as alumni, and can help students develop transferable skills by working on projects with a passion to transfer the technology useful for the end-user.. The newly elected Office bearers of BMEA was announced and the Chief Guest congratulated and offered them the medallion to the newly elected Student Council members, the Biomedical Engineer's Association and the Healthaware Club Coordinators.
