

JERUSALEM COLLEGE OF ENGINEERING
DEPARTMENT OF BIOMEDICAL ENGINEERING
REPORT ON WORKSHOP AND HANDS-ON TRAINING

TITLE OF THE WORKSHOP: MEDICAL EQUIPMENT TECHNOLOGY

RESOURCE PERSON: Training Team under Supervision of Dr. Atheena Milagi Pandian

Founder, Atheena Pandian Pvt Ltd, Chennai

Venue: Digital Signal Processing Lab, 3rd floor, Main block

The Department of Biomedical Engineering Organized a one-day Workshop and Hands on Training on Medical Equipment Technology on 24.8.2023 (Thursday) for third year BME students from 8.30 am to 3.30 pm by Atheena Pandian Pvt Ltd Chennai

The students are trained by Ms. Nivethida and Mr. Harish Keerthi, trainer of Atheena Pandian Pvt Ltd, Chennai. The workshop was conducted for the students to get a hands-on training on medical equipment.

A fundamental knowledge related to basic anatomical and physiological system on human body was provided in detail to the students. The equipment such as infusion pumps and syringe pumps working were demonstrated, dismantled, troubleshooting and reassembled. Students were also given information about specifications of various equipment. They were trained on construction, working of various medical equipment, various information was shared and students were inactive throughout the session. Students were allowed to dismantle the equipments, they were also trained at assembly and working of surgical head lamps. At the end of the session a written test was conducted to test the effectiveness of the training sessions.
