

## **NETWORK OF COMPUTER SCIENCE AND ENGINEERS (NCSE)**

### **(A Students' Technical Association)**

#### **Aim**

- To provide a student-led platform that encourages peer-to-peer learning and collaborative knowledge sharing in Computer Science and Engineering.
- To promote self-initiative, creativity, and technical exploration among students through independent organization of technical activities.
- To nurture leadership, responsibility, and professional ethics by empowering students to manage and execute technical events.

#### **Objectives**

- To enable students to plan, coordinate, and conduct technical events such as coding challenges, workshops, quizzes, and project exhibitions.
- To encourage learning of contemporary computing technologies through student-initiated discussions, demonstrations, and hands-on sessions.
- To strengthen teamwork, communication, and organizational skills by involving students in all stages of event management.

#### **Outcomes**

- Students demonstrate improved technical competence through active participation in peer-driven learning activities.
- Enhanced leadership, teamwork, communication, and decision-making skills as a result of student-managed event execution.
- Increased confidence, professional responsibility, and readiness for higher studies, research, and industry roles.

## **Introduction**

The **NETWORK OF COMPUTER SCIENCE AND ENGINEERS (NCSE)** was established under the leadership of the Head of the Department of Computer Science and Engineering, with the active involvement of faculty members and students, to serve as a dynamic, student-driven technical forum. The association aims to enhance technical knowledge and innovation beyond the curriculum, strengthen the application of theoretical concepts to real-world computing problems, and cultivate a research-oriented mindset among students. Through continuous student-driven technical activities, NCSE promotes lifelong learning and professional development in the field of computer science and engineering.
