

ACADEMIC YEAR: 2023-2024

SEMESTER: 3

CLASS: II YEAR IT

ODDSEM

Title: JCS1303 Computer Architecture

Name of the Faculty member: Mrs. K. Shanmuga Priya, Assistant Professor

Topic: To conduct Quiz on the basic structure of a computer system, processor, and parallelism.

Practice followed: Jigsaw Method

Objectives:

O1: To make the students to understand the concepts and gain knowledge in computer architecture and organization.

O2: To conduct parallel and pipelining techniques.

Justification for choosing this topic:

To make the students to understand the concepts and gain knowledge through attending quiz on the concepts like basics organization of computer and architecture

Group Activity:

Students were divided into 6 groups with 10 members in each group.

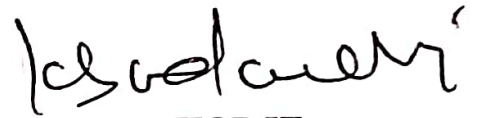

The course instructor delivered the instructions of quiz. The questions were posted to each team and the questions were circulated giving chance to each team. The correct answers were given additional points and negative answers has deduction of points.

Outcome:

This makes the students to actively participate as a team and make them gain knowledge as result of this.
