7	Essay writing (online)	04.03.2024 to 13.03.2024

The Halcyon Club of Jerusalem College of Engineering proudly hosted the much-anticipated "Word Quest" event on November 4th, 2023, catering to the intellectual curiosity and linguistic prowess of the college's II year, III year, and final year students. More than just a date on the calendar, "Word Quest" was a unique initiative aimed at not only fostering a love for the English language but also providing a platform for students to showcase and refine their linguistic skills.

Main Objectives of this Event:

- To identify and highlight the strengths of students in various aspects of the English language, such as vocabulary, grammar, and communication, while also pinpointing areas that may require further development.
- To encourage active participation of students in linguistic challenges, fostering a sense of enthusiasm for language-related activities and promoting a positive learning environment.
- To provide a platform for students to enhance their language skills through friendly competition conducted during the "Word Quest" event.

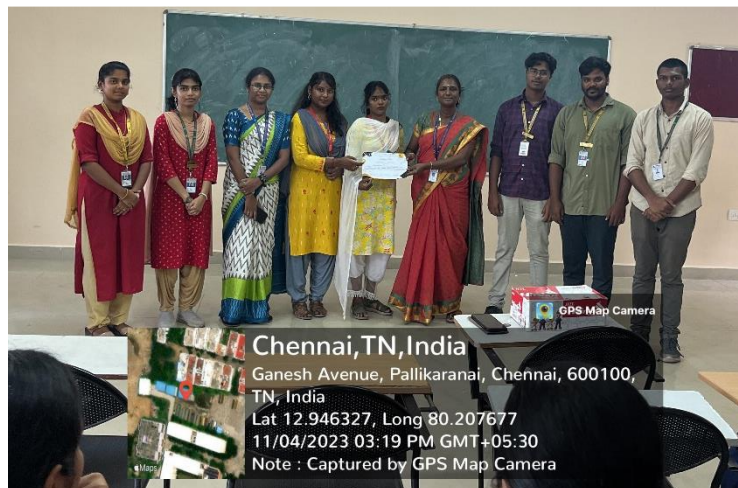

EVENT OVER-VIEW:

In Round 1, participants were presented with a set of jumbled letters, and their task was to unscramble these letters to create as many words as possible. It was a race against the clock to demonstrate vocabulary prowess. And 22 teams were selected from this Round 1.

Round 2 added a twist to the competition, as it turned into a game of "Pick and Draw." Selected Teams were eligible for this round 2. Teams of two players took the stage, with one member picking a random word to draw while the other had to decipher the word from the artwork. This round added an element of creativity and quick thinking to the event.

VALEDICTORY SESSION:

After the thrilling competition, a thorough validation process was carried out to determine the winners. The victorious participants were honored with cash prizes and certificates as tokens of their linguistic excellence. "Word Quest" was an intellectual showdown that tested participants' word wizardry and brought excitement to the world of language.
