(An Autonomous Institution affiliated to Anna University, Chennai)  
**DEPARTMENT OF BIOMEDICAL ENGINEERING**

**HEALTHAWARE CLUB - REPORT ON HEALTH CAMP FOR TESTING HEARING  
LEVEL (AUDITORY FUNCTION TEST) HELD ON 29.12.2021**

Healthaware club in our department is involved in creating health awareness and promoting general well-being of the community by organizing several health related programs. In this regard, The Healthaware club had organized a camp for teaching and non-teaching faculty to test the hearing level of the individual (Auditory Function Test) on 29.12.2021 at the Diagnostic and therapeutic Equipment Lab of our department. This test is a simple and non-invasive procedure where the person is presented with auditory tone of different frequencies and the the minimum sound intensity that the person is able to perceive is noted as threshold of hearing. From the values found using the ear conduction test, the hearing loss if present may be diagnosed.

The final year students, members of the Healthaware Club under the guidance of the club coordinator Ms. S. Purnima, Assistant Professor had coordinated the event and conducted the test for the participants.

A total of 9 members including teaching , non-teaching and supporting staff benefited from the event.

## Event Organizing student members :

S.No.	Name of the Organizing member	Year
1.	Ms. A. Thamizhselvi	IV
2.	Ms. M. Subha	IV
3.	Ms. J. Saranya Devi	IV
4.	Mr. K. Dhanush	IV
5.	Mr. Nidhish Kanna	IV

## Registration form :

About the College	About the Department	About the Club
<p>Jerusalem College of Engineering was established in the year 1995 under the umbrella of Jerusalem Education Trust to impart quality engineering education. Over the period of 26 years it has made a mark of itself and got established as an institution which offers excellent engineering education. It is one of the very rare Institutes which is situated in close proximity to premier educational institutes and also the IT Hub of Chennai. The institute offers 9 Under-graduate and 6 Post-graduate course in Engineering, Technology and Management.</p> <p>The Institute has very good infrastructural facilities and laboratories with state-of-the art equipment. The faculty of the college are a nice blend of both academic and industrial experience. The alumni of the college holding key positions in various national/international industries and academic institutions have brought laurels to the institution. The institute has been consistently getting University Ranks at both the UG and PG level. The institute is accredited by NAAC and NBA.</p>	<p>Biomedical Engineering Program was introduced at Jerusalem College of Engineering in the academic year 2005-06, with a sanctioned intake of 60 students. The department is functioning effectively under the guidance of Dr. Sheeja V. Francis. The department has highly qualified faculty members who work tirelessly towards betterment of the department. The Biomedical Engineering Association was inaugurated in the year 2008 by Prof. Dr. M. Rama subba Reddy, Professor, Head of Laboratory, Biomedical Engineering Group, Department of Applied Mechanics, Indian Institute of Technology, Madras.</p> <p>The department provides a challenging environment to the students to build their potential so as to develop competent professionals. The department possesses well-equipped laboratories to propel the research instinct of students. The department also encourages the students to excel in extra-curricular activities apart from academics. The students and faculty share a great rapport among themselves which proves to be the underlying factor behind the academic excellence of the students.</p>	<p>Healthaware club in Biomedical Engineering department is involved in creating health awareness and promoting general well-being of the community by organizing several health related programs.</p> <p>The second year students are the members of the club who are involved in planning and execution of events organized under the club. every year many events are conducted with an idea of creating awareness about the health.</p> <p><b>About the Programme</b></p> <p>The health camp is organized for testing the hearing level of the individual (Auditory Function Test). This test is a simple and non-invasive procedure where the person is presented with auditory tone of different frequencies and the minimum sound intensity that the person is able to perceive is noted as threshold of hearing. From the values found using the ear conduction test, the hearing loss if present may be diagnosed.</p>
