The Chairman welcomed the members to the meeting of the Board of Studies and thanked them for their valuable presence. He informed the members that the institution proposes to implement **Regulation 2027 (R2027)** for all B.E./B.Tech. programmes, applicable to students admitted from the academic year **2027–2028** onwards. He further stated that the draft curriculum framed under R2027 would be placed before the Board for deliberation, suggestions, and approval.

The following agenda points were discussed in detail.

1. Approval of the Curriculum under Regulation 2027 for Semester I and Semester II courses of B.E./B.Tech. programmes applicable to students admitted from the Academic Year 2027–28.

The Chairman presented the list of courses proposed to be offered by Department of Science and Humanities in Semester I and II under Curriculum 2027 for various B.E./B.Tech. programmes **designed for R2027 (CBCS)**.

All the courses presented by the Chairman were approved by the BOS members. In addition to the approval, the following points were discussed during the meeting.

- Dean – Academics, Dr. P. Anuradha justified the need for having the common course “Fundamentals of Electrical and Electronics Engineering”, for all branches, when asked by Dr. V. Yuvaraj.
- Dr. D. Praveen Sam enquired about the assessment methods for the course “Life Skills for Engineers”. Dr. P. Anuradha, explained the procedure and assured that the methodology will

be explicitly mentioned in the Regulation itself, for all type of courses such as Theory, Practical, Integrated, Skill development etc.

- Mr. N. Karthick suggested the use of various tools and techniques that can be helpful for the course "Life Skills for Engineers".
- It was also suggested that the activities in the course "Life Skills for Engineers" need not be module or unit wise and can be more general.
- Dr. C. Nandakumar, suggested that the Integrated course may be categorized either as Theory Integrated Lab or Lab Integrated Theory. After detailed discussion, it was decided that the courses of this category can remain as "Integrated".
- Dr. C. Nandakumar and Dr. D. Praveen Sam suggested that 3 periods per week may be allotted to Engineering Practices Lab, instead of the proposed 2 periods per week. Further Dr. C. Nandakumar wanted the college to check feasibility of allocating 2 credits instead of proposed 1 credit for Engineering Practices Lab. The curriculum shall be revised to accommodate 3 periods per week and 2 credits for Engineering Practices Lab, as suggested by the BOS members.

2. Approval of the Curriculum under Regulation 2027 for Mathematics courses to be offered in Semesters III and IV of B.E./B.Tech. programmes applicable to students admitted from the Academic Year 2027-28.

The Chairman presented the list of Mathematics courses to be offered by Department of Science and Humanities in Semester III and IV under Curriculum 2027 for various B.E./B.Tech. programmes designed for R2027 (CBCS).

All Mathematics courses presented for semester III and semester IV of B.E./B.Tech. branches were approved by the BOS members.

The following suggestion was given:

- Dr. V. Yuvaraj suggested that R programming, MATLAB may be considered for inclusion in syllabus of relevant mathematics course.

3. Approval of the Curriculum under Regulation 2027 for Mathematics courses to be offered in Semesters I and II of the MBA programme applicable to students admitted from the Academic Year 2027-28.

The Chairman presented the list of Mathematics courses to be offered by Department of Science and Humanities in Semester I and II under Curriculum 2027 for MBA programme designed for R2027 (CBCS).

All Mathematics courses presented for semester III and semester IV of B.E./B.Tech. branches were approved by the BOS members.
